

PRESS RELEASE

Montebello Packaging honoured with three Excellence in Quality Awards

Technical Achievement Award - presented for innovation in decorating and manufacturing

Best of Category (Aerosol & Bottle) Award of Excellence

Best of Category (Miscellaneous) Award of Excellence

Three of Montebello Packaging's metal designs were recognized by the Metal Decorators Association during the 21st "Excellence in Quality" decorating awards competition at its 2017 Conference held May 23-25 in Oak Brook, IL. Each year the IMDA conducts a Quality Contest to recognize the skillful achievements of the metal decorating industry. Entries from around the globe are judged in eight categories by judges made up of graphic arts professionals that evaluate the quality of printing, degree of difficulty, appearance of coating finishes and the technical expertise required for each piece. The IMDA has bestowed this honour upon the Muscle up Milk, Anna's Country Kitchen Vegetable Bouillon aluminum tube and Panther Energy Drink.

"It was a very proud day for Montebello. It was very exciting to come to this conference and see Montebello be recognized for our innovation and contribution to advancement in our industry."

– Jim Erjavec, Montebello Global Technology Manager
