

Title: Quality Auditor

Reports To: Quality Supervisor

Location: Harrisonburg, Virginia

Montebello is one of the top manufacturing suppliers in North America. Montebello manufactures Aluminum Tubes and Cans, Laminate Tubes, both Foil and All-Plastic Tubes for Pharmaceutical, Personal Care, Cosmetics, Household, Industrial and Food products. We have a great opportunity for you to join our world class company.

Principal Responsibilities may include:

- Primary point of contact for Job Packet review and verification prior to and during Line Clearance and Job Set-up protocols. Ensuring Line capability from Job Set-up (Sampling and Test Plans) through Line Operations to Final Product Release are addressed and verified prior to manufacturing.
- Primary PVS *or* Print Vision System Lead Operator ensuring PVS operational use from Job Set-up through Line Verification to Final Product Release. Corrects “out of tolerance” conditions by completing and verifying needed adjustments ensuring continuous PVS operational integrity and use. Escalates “non-use or operational” conditions to appropriate Plant Management.
- Primary point of contact for verification of inspection and test device calibration and use integrity. Replaces inspection and/or test devices found to exhibit non-use conditions, and reports same to Device Calibration POC.
- Primary point of contact for ensuring accurate product and process quality reporting as reported by Shift Supervisor, QC Inspector and Line Operations from Job Set-up (Sampling and Test Plans) through Line Operations to Final Product Release. Escalates product quality reporting deficiencies to Shift Supervisor, QC Inspector and Line Operations. Reconciles and verifies product Scrap reporting as part of “Line Operations Reporting”.
- Primary point of contact for ensuring accurate product Scrap reporting from Job Set-up through Line Operations through Final Product Release as reported by Line Operations. Escalates Scrap reporting deficiencies to Shift Supervisor, QC Inspector and Line Operations. Reconciles and verifies product Scrap reporting as part of “Line Operations Reporting”.
- Primary point of contact for ensuring accurate Product Release reporting. Escalates Product Release reporting deficiencies to Shift Supervisor, QC Inspector and Line Operations. Reconciles and verifies product Scrap reporting as part of “Line Operations Reporting”.
